EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Joseph Maxey (reg. no. 64,685) on 8/5/10. The amendments are the fix minor informalities as seen below. Further, it was confirmed during the interview that applicant did not mean for the term "computer readable medium" as use in the current application to encompass non-statutory media such as signals. As such, claim 20 and its dependent claims are considered statutory since the claims are directed towards a manufacture comprising an unlocking program stored on a statutory computer readable medium and having the characteristics recited in each of the respective claims.

As per MPEP 713.04, a separate interview summary form is not provided because the substance of the interview has been summarized herein. Note that as per 37 CFR 1.121(g), changes to the application via examiner's amendment may be made by specific instructions as set forth in the examiner's amendment--compliance with paragraphs (b)(1), (b)(2), or (c) of 37 CFR 1.121 is not required.

The application has been amended as follows:

- In the last two lines of claim 25, replace "such system administration program" with "the at least one system administration program".

Art Unit: 2435

- In the last line of claim 26, replace “such system administration program” with “the at least one system administration program”.
